

Actual savings

Due to our innovative solution, which enables higher employee efficiency, a company with 50 employees can have a guaranteed saving of 3.000 to 5.000 EUR per month, depending on company size. (Calculate potential savings for your company – click »Calculate your savings« icon on home page)

Consequent savings

- Due to increased communication between employees, and the possibility to express frustration over various problems, employee turnover significantly reduces, while the application also helps to reduce sick days.
- Monthly surveys can with great precision reveal which skills each individual needs, therefore providing significant savings in training courses.
